ULP PLATE INFORMATION GUIDE

ULP-302 & ULP-402

Reliable insulation washer plates for securing rigid insulation to a variety of substrates.

PRODUCT OVERVIEW

The ULP-302 and ULP-402 are 1-3/4 in. polypropylene washer plates designed for use with exterior coated screw fasteners or approved nails to secure exterior insulation.

ULP-302

Rigid Insulation Washer

For rigid and continuous insulation, stucco and ICF/SIP applications.

KEY FEATURES

- Stiffening ribs reduce plate deflection
- 16 keyholes help mechanically lock base coat
- Pre-assembly feature for screw installation
- Screw-fastened, nailed or shot into place
- Box quantities: 1,000 or 250

ULP-402

Washer with Pre-Spotting Post

Central pre-spotting post helps position the plate in insulation board.

KEY FEATURES

- Pre-spotting stem aids positioning
- Reinforcing ribs minimize deflection
- 16 keyholes help mechanically lock base coat
- Use with suitable exterior fasteners
- Box quantities: 1,000 or 250

ULP-302: Not recommended for standard PB EIFS systems. Consult system manufacturer for approved use.
