

Stock Removal – 34% More Plaster

The stock removal capabilities of Mirka LEROS are outstanding when used with the Abranet discs. Mirka LEROS removes 34% more plaster in the same time as a comparable competitor tool.

Due to the full force system, dual suction points and the unique net features of the Abranet discs the surface finish is both smooth and dust-free.

Stock Removal With 8.8 lbs Grinding Force

Comparison of stock removal between Mirka LEROS (Abranet P120) and a comparable competitor tool (abrasive grit P120).

Dust-Free Solution For Sanding

MIW950-DE1230-4 + MIW-EXT

Pair Abranet® Abrasives with the Mirka® LEROS to complete the system for the ultimate dust-free solution for sanding.

Abranet® Abrasives

= NO DUST

Less than 8 lbs. 180° flexibility. 100% comfort.

The Mirka® LEROS should be used as a complete system and must be used with the DE-1230-PC otherwise warranty may be affected.

Mirka® LEROS

my Mirka®

COMPLETE WALL AND CEILING SANDER SYSTEM

The Complete System

Mirka® LEROS, the lightest brushless electric wall and ceiling sander on the market.

This unique tool has features like no other comparable sander on the market.

Transportation and Storage (MIW-BAG)

The carrying bag is made of durable materials that stand up to wear and tear in different working environments. In addition to being a practical storage solution, the bag protects the tool from dust and damages while being transported.

Extended Sanding (MIW-EXT)

The T-shaped handle gives you the opportunity to reach higher up or vary your working positions in order to avoid fatigue. When the extension shaft is assembled the tool will gain an additional 19" of reach without the use of a ladder.
